Subject: FW: New docs on extranet

Hi there,

In case you haven't seen them yet, there are some new documents on the extranet that you may want to review before the July 8th Co-operating Agency meeting.

Best, Heather

Subject: New docs on extranet

Good morning,

I just checked the extranet and AECOM has uploaded some new documents.

- Under Documents -> Proposed Action, there's now an **ASCMCRA Reclamation Plan** and a new **Fish Protection Plan**
- Under Documents -> Permit Applications -> Federal Permit Applications -> 404 Permits -> DA_Application_February2015_INCOMPLETE, **there's a table of Pacrim's responses to ACOE's supplemental data requests for the 404 permit**. I also don't remember seeing the other 404 permit docs in there before, but it says they were uploaded on 5/21 so I guess they're not new.

They're a little big to all attach, but let me know if you're having trouble downloading them and I can stick them on a thumb drive.
